LEGEND

-  Wireless Access Buildings
-  Wireless Coverage Area
-  Computer Repair Dropoff
-  Computer Rooms/Wireless Printing/Passphrase Reset Locations
-  Center for Accessible Technologies

*Wireless printing/passphrase resets not available here.

Important Security Notification:
 Your campus computing account login ID and passphrase should only be used when you authenticate to campus Web sites and online services.
 UC Davis will never ask you to confirm or verify your computing account by providing your passphrase via telephone or email. Requests that ask you to reply to an email or visit a non-campus affiliated Web site to confirm or verify your account by providing your passphrase are called phishing scams. DO NOT RESPOND TO THESE REQUESTS even if they appear to come from an email address ending with "ucdavis.edu".
 If you think you have provided your passphrase or other personal information in response to a phishing scam, contact the IT Express Computing Services Help Desk immediately at 530-754-HELP (4357).

- How to access the UC Davis wireless network**
1. Visit wireless.ucdavis.edu for step-by-step instructions on how to configure your wireless device to access **mooblenet** or **mooblenet**.
 - **mooblenet** supports most wireless devices over 802.11a/b/g authentication
 2. Open a browser at a wireless location listed on the map.
 3. You will be prompted to login with your Kerberos ID and passphrase. (To set up a computing account, visit computingaccounts.ucdavis.edu.)
 4. After you have logged in, a window will appear that confirms your connection to the wireless network.
 5. Need help? Contact the IT Express Computing Services Help Desk at 530-754-HELP (4357).
